SUICIDE.-On Monday evening the family of Abraham Good, who resides in Plain township about one mile and a half north west of New Ber lin, were horrifled at discovering the body of Mr. Good hanging by the neck, from a cross beam in more & Lamborn Bros., of Minerva. Bent takes pleasure in exhibiting and explaining the nature the barn. It appears that the deceased has been sickly for some time and it was the opinion that he was troubled with cancer in the stomach. He had been subject to occasional fits of melancholy buton the day that he committed the terrible deed his fifty-eighth birthday, he appeared in good spirits. After dinner he laid down and took a nap; arising about two o'clock he stated that he was going out to look at the fields. He was miss-ing at supper time, and search was made when his body was found suspended by a rope, as before stated. From the manner in which the rope was fastened, it was undoubtedly a deliberate case of suicide. The rope with which he hung himself was one that had been in use about the barn, bu had been missing for some time; so it seems be had been making preparations to commit the act on his birthday, for several weeks. The body was cut down and Drs. Young, Phillips, Scott, Daugherty and Holtz made a post mortem examination, which resulted in discovering a cancerous deposit in the pyloric end of the stomach. Deceased leaves a wife and several children to mourn his sudden death. The funeral took place on Wedneeday.

> AN ELOPEMENT .-- The Youngstown Register thus relates of a sensation in the town of Berlin, near that place: "About seven years ago there was a wedding there that united a couple, both of whom were highly respected in the township. They quarrelled, were unhappy, and three years ago were divorced. Two years ago both married sgain, she settling at Berlin with her second hus band, he going elsewhere with his new wife During the last year they have met a few times, and observing ones noticed the old spark of love rekindling in their breasts. But little was thought of this, until last week she disappeared from home leaving her husband confined to his bed with a broken leg, the result of an accident of some three weeks before. Subsequent developments show husband number 1 had disappeared, and the pre-sumption is that they have flown together in search of a secluded nest in some remote corner of the great west."

LOST AND FOUND .- On Monday an old gentleman from West Breokfield, went into the Treasurer's office to pay his taxes. After completing his business he started out, but had only gone a short distance when he discovered that his pocket book, containing some \$37 and a few receipts, was missing. He concluded that his pocket had been picked and had about given it up for lost when he was advised to go back to the office and make enquiries. Upon his return treasurer Fessier handed him his pooket book and contents. Some honest man had picked it up off the floor and left it at the office for the owner.

WHEEING & LAKE ERIE R. R.-THE COST OF NARROW GAUGE RAILWAYS.

It appears by the eighth annual report of the Commissioners of Bailroads in Massachusetts for 1876, that the cost and equipment of the standard guage lines was \$65,198,43 per mile, while the narrow (5 ft.) gauge lines had cost \$25,214.92. The lines reported on are all fully completed, including everything that enters into the cost of construction and equipment. Many of the narrow guages in that State, like the Painesville and Youngstown and others in this State, were constructed during the times of inflation and high

There are about 270 miles of narrow gauge ratiways in the province of Ontario, terminating in Toronto. The average cost of these lines, rolling stock included, it appears from a recent paper furnished to the institution of Civil Engineers of England by Mr. Edmund Wragge, of Toronto, agent of Str Charles Fox & Sons, of London, and Consulting Engineer of the Wheeling & Lake Erie has been \$20,083 per mile. Those facts are par-ticularly interesting at this time, in view of the vigorous prosecution of the Wheeling line by the mpany and contractors.

Our citizens will therefore see in the present time great reduction in cost, by comparison of the figures quoted with those to which the present contract for building and fully completing and equipping the Wheeling and Lake Erieline. The entire cost averaged over the whole length of 160 miles from the lake to the Ohio river, including over a mile of rock tunneling and many miles of rock excavation and the very heavy work north of and at Norwalk, is, by the Wilson contract, limited to \$20,000 a mile. Of this sum, only \$3,000 per mile is to be furnished by the local cash subscriptions, and is in a final settlement with the contractors, to be averaged over the entire 160 miles. The Painesville narrow gauge has cost over \$30,000 per mile, which is mainly due to the fact that it was constructed and equipped before the fall in prices, but in part, also, to bad finance trying to avoid the blunders of their predeces

The present managers of the W. & L. E. Co. are but of other companies, by working in the local each to complete a continuous section that will pay to operate and at the same time form a subtantial basis for raising loans, and financiering for the whole line. The result of this wise policy is already made manifest by the approach of the time when the twelve miles between this town and Huron will be opened for traffic, and the rapid progress of the work on the sixteen miles between Norwalk and New London. With a pro-per response from our Norwalk and Milau stockholders, the twenty eight miles in question could easily be opened for traffic by August 1st.-Haron

SAD DEATH.-On Thursday of last week, John Fleischer, Sr., who resided on South Flum street, just south of the railroad, disappeared early in the morning. He had retired early the evening before complaining of not feeling very well. As he was in the habit of going away early, and some times remaining away for a day or two, no anxiety was felt for him until evening, when one of his daughters informed her brother, who resides on South Market street, of the circumstance. He enquired at different places where his father had been accustomed to work, but he had not been seen. The next morning he learned that some boys had found some clothes on the bank of the Union Mill Dam, near the railroad bridge on Thursday. Upon examining the clothes he identified them as those worn by his father, and immediately proceeded to drag the dam but without success. Sat-urday morning, procuring the assistance of Wm. Betz and Officer Rigier, search was again made, when Mr. Rigier succeeded in finding the body in the deep hote just below the bridge and raising it brought it to abore. Coroner Altekruse summon ed Messre, M. Ruhman, R. H. Anderson, Charles Bush, Levi Meyers, John Waechter and John Melbourne as a jury and proceeded to hold an inquest. There were no wounds found on the body and in accordance to the testimony given, the jury returned a verdict, "That the deceased came to his death by accidental drowning in the Union Mill Dam, while bathing, on the morning of the 14th inst." The deceased was seventy years of age and had

been a resident of Canton for a great many years. He leaves a wife and several grown up children,

ROBBERY AT KENT.—The merchant tailoring establishment of C. B. Sink, in Kent, was last night burglarized of from \$300 to \$400 worth of ready made clothing, broadcloth and cassimere in pieces. An entrance was affected at the front door, a hole having been bored through and the lock forced off. The goods were conveyed away in a wagon drawn by one , horse, and when last seen was coming toward Akron.

The police have been notified of the burglary and are on the lookout, but as yet no further clue has been obtained.

LATER.—A dispatch from Kent this afternoon says that a man named Dallas Keller, has been arrested as being an accomplice in the burglary. He is a low character and has been in the Bavenna jail for a similar offense before. It is not known what kind of evidence there is against hlm. Sink, it will be remembered, was burned out about a year ago, losing everything in his store about \$10,000 worth.—Akron Beacon, 15th.

IN THE DITCH,--It is said when the blind lead the blind both fall in the ditch, and when the blind go it alone the result may be the same. That was the case Monday when Lynch, the drayman's olind mare ran off in real down earnest, on 10th street near the Depot, when he was in a place collecting a bill. The animal ran into the ditch at the end of the west culvert on Walnut. The wonder is the blind brute was not killed; but it was not, in fact did not seem to be much hurt.

Henry Ruble, of McGregor, Iowa, died of ty-phoid fever, on Saturday last, aged about fifty years. Mr. Ruble was a general agent of Russell & Co., of Massillon for the sale of their machinery. He was a man of immense proportions, weighing probably, more than three hundred pounds. The family removed from Wayne county near 25 years ago to Wisconsin. They were all very large peo-

ATROCIOUS MUNDER AT MT. VERNON.

Mr. VERNON, O., June 16 .- A most brutal and meditated murder occurred at the Bergen House this morning at seven o'clock, only being equaled by the terrible murder of Descon John McCormack at this place three years ago. William St. Bergen called at the office of the Bergen House and asked Thomas J. McBride, son of the proprie-tor, Thomas McBride, Esq., for a sachel which he claimed was in the office somewhere. McBride did not find it, and sold young Bergen to wait un-til the clerk, Courtier, should come in, when another search would be made. Bergen was in a bad humor and parily intoxicated, and remarked, "You will be sorry for this, and shall answer to a higher tribunal." Then he started off, going up to Gregory's gan-shop, where he procured a revolver on trial, immediately returned and entered the front door near the office, where McBride was sitting just outside the door. Bergen took deliberate aim and fired, the ball entering the back part of the victim's head. He fell back in-Peter Sailer is erecting a two story frame back part of the victim's head. named, three hours later. Mr. Underwood, of Indiana, a guest, who was sitting on the opposite side of the door, sprang up and grabbed Bergen, who immediately said he had shot Tom and old not care. McBride's father took the empty revolver from Bergen and struck him on the mouth with it. By this time the spectators were caring for McBride, while Policeman William Weaver arrested the assassin and escorted him to Jail. On the way Bergen said it was an in ntional act. The physicians were soon at hand and rendered all possible aid to the suffering man, but without avail. McBride died at ten o'clock. He was in the prime of life, being about thirty-five years of age, and leaves a wife and two children, who were at Newark visiting. Mo-Bride's family formerly lived at Piqua, O.

A Coroner's jury was impanneled before Es-

This son has given his father much trouble during the past few ears, but he has at last come to a sorrowful standpoint. The Common Pleas Court will convene next Monday, and it is expected that a special Grand Jury will be ordered drawn and Bergen's case considered soon after. Much sympathy is expressed for both families connected with the sad tragedy, and our citizens are much excited over
